Illinois House Redistricting Committee

Springfield, IL

Gentlemen:

We here at the Student Financial Assistance Outreach Center, located on the campus of Chicago State University, wholeheartedly support redistricting. The process of redistricting helps strengthen our community. It makes room for growth and progress. Hopefully, this redistricting will open up the realms of technology and advancement.

- For constituents, elected officials, and community leaders, the proposed map of representative district 27 insures that they have legislators that are familiar with the community and the issues that link local residents together.
- The proposed map of representative district 27 takes into account communities of interest such as social economic status, housing start, agricultural business district, etc., and provides the best representation for local residents.
- The proposed map reflects the areas unique challenges, provides that local residents with common interests share a representative who will advocate for their needs and concerns.
- The proposed map includes clear and easily recognizable boundaries so local residents and community organizations can easily know who will be representing their concerns and distinct capital.

Once again, we wholeheartedly support redistricting.

Sincerely,

Dozier Thomas

Director of Operations
