

May 24, 2011

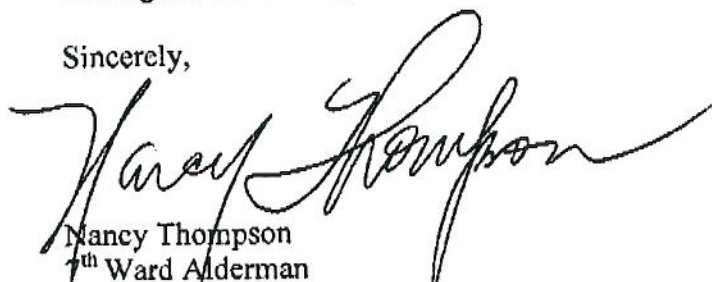

To The Illinois House Redistricting Committee:

This letter is written as a recommendation for the proposed district map. This proposed map will allow Representative Rita to continue to work with the residents of our community.

This proposed map will link together local residents with a common interest. This will allow Representative Rita to fully serve his residents, working towards a common good. The map will also keep residents with similar economic statuses within the same district. As a newly elected Alderman of the 7th ward in Blue Island, I know the concerns of residents and it is important we remain united in one legislative district.

I strongly support the proposed district map as it will allow Representative Rita to continue serving the community.

Sincerely,

Nancy Thompson
7th Ward Alderman
Blue Island
