Honorable Barbara Flynn Currie,

I am writing in favor of the proposed redistricting map. I have lived all of my life in the 71st district. With the proposed map, I will now reside in the 72nd with other properties I own remaining in the 71st. I am currently working on a project in Port Byron, IL. The commercial building will house three luxury riverfront lodging units. It is intended to bring more tourism to the river town. I see the new redistricting as a plus for the upper part of Rock Island county. In the past, our representative's efforts always focused on the larger populated areas of East Moline/Moline. The smaller towns along the riverfront which are prime for tourism seem to take a back seat. With the new map, a representative will be able to devote time and serve the communities as they should be taken care of.

I am looking forward to the redistricting as it is currently proposed.

Sincerely,  
Debra Hansen Toppert
