To whom it may concern,

We have some strong concerns about the redistricting which is being discussed by our Illinois legislature. Our concern revolves around the question of whether this change is being considered for the good of every citizen in the state of Illinois or if rather it is a bipartisan political move.

I feel that this concern can be clarified by asking yourself the following questions:

WERE BOTH REPUBLICANS AND DEMOCRATS INVOLVED IN THIS REDISTRICTING PROCESS?

DOES THIS REDISTRICTING FAVOR ONE POLITICAL PARY OVER THE OTHER IN FUTURE ELECTIONS IN THIS STATE?

The answer to the first question is a resounding NO. The answer to the second question is a resounding YES to the democrats in the state of Illinois.

The only conclusion then that anyone in this state could reach is that this process is a blatant political move by Illinois democrats!! You represent all individuals in Illinois not just those of one party. I am becoming more and more ashamed to be a citizen in this state.
