As a resident of Palos Heights, I/we have had zero representation for too many years. The current legislative boundaries deprive me of my rights of living in a democracy. There is no choice for us. Any representative (currently Monique Davis) would no doubt find it impossible to give equal attention to all those living in this legislative district. The needs of those in the eastern portion greatly differ from those in the western area. In the previous decade the boundaries were more north to south rather east to west. They should be returned to that. There is no reason the suburbs should be tied to the city of Chicago.

On a separate note, I find it repulsive that Rep. Monique Davis refuses to pay rent and taxes for her public office. I/we expect honesty and integrity from our public officials. Ms. Davis is hardly a role model for our children.
