My name is Patricia Twymon and I am both a resident and business owner in Calumet City, IL. I have viewed the map contained in House Bill 3760. I believe the map will insure legislators are familiar with their community and issues that link local residents together. The map takes into account community interest, as well as, provides the best representation for local residents. The map also reflects our areas unique challenges and provides local residents with common interest, a representative who will advocate for their needs and concerns. The map will be clear and recognizable with clearly defined boundaries. Residents and community organizers will easily know who will be representing them.

A fellow business owner that also lives in Calumet City accompanied me on a visit to, what we thought was both of our, state representatives office. It was during that meeting that we were informed that I was in the right place but she wasn't. We both went in with the same local community issue but were forced to visit two offices to be heard. This should not be! Local residents should only need to visit one office and that office should be the same office for every resident in that local community.
