Members of the Redistricting Committee:

Attached below please find an updated map depicting a proposed Coalition House District that includes the Greater Chinatown Community Area within a single representative district.

The boundaries of this map were negotiated in conjunction with the "Unity Map" created by the Redistricting Committee of the United Congress of Community and Religious Organizations (UCCRO), Latino Policy Forum, and more than 17 cooperating organizations from the Latino, African American and Asian American Communities.

We ask that particular attention be paid to the map boundaries pertaining to the Northeast corner of the proposed district. The attached map highlights several important sites that we feel strongly must be included in any district that is drawn to include Chinatown.

Many Thanks,

Theresa Mah, Ph.D.
