Subject: FW: Redistricting

More to include in the written testimony.

Jack,
I was not able to attend the redistricting meeting in Marengo on Saturday but do have a concern. It doesn't seem logical to have most of Crystal Lake in the 16th District and part of it in the 8th while most of Woodstock is in the 8th with a small section in the 16th, and Harvard is in the 16th.
I don't know where the dividing line should be, but it doesn't make sense to me the way it is.
I understand that Republicans gerrymandered the districts so that Phil Crane could keep his seat in the House. Can't the Democrats do the same to unseat Joe Walsh and Don Manzullo?
As for the General Assembly, I have no idea how those districts are determined or the numbers of the districts. All I know is who my Representative and Senator are.
